Experience

IFormatLogicITSolutions   Iba, Zambales
Ful Stack Web Developer   Sept 2023 - Present

- Actively collaborating with other web dev members to design and implement website features
- Integrated REST APIs for seamless communication between server-side and client-side, enabling dynamic data fetching and interactive features.
- Effectively employed WordPress, Laravel, Vue.js, and Figma to develop dynamic websites and web applications, ensuring seamless user experiences across diverse projects.

IFormatLogicITSolutions   Iba, Zambales
Web Developer Intern   July 2022 - Oct 2022

- Designed visually appealing websites with a focus on UI/UX, ensuring intuitive navigation and engaging user experiences.
- Implemented mobile-responsive designs using HTML, CSS, and JavaScript for seamless browsing across devices.
- Utilized PHP and MySQL to develop dynamic and interactive CRUD systems for various web development projects.

Education

President Ramon Magsaysay State University   Iba, Zambales
BS Computer Engineering *GPA: 1.84*   Aug 2019 - Aug 2023

Projects

The Blog - *Laravel, Vue Js, Rest API, Tailwind CSS*
Crafted a versatile blog web application featuring user-friendly dashboards tailored for both administrators and users. With intuitive sorting options for categories and a robust search functionality, the platform ensures effortless navigation and enhanced content discovery for an enriched blogging experience.

Museum - *HTML, CSS, Javascript*   https://marlon-03.github.io/Museum/
Inspired by the museum of modern art, this is a simple static website built with HTML, CSS and Bootstrap. It is fully responsive and mobile friendly.

The Pizza - *HTML, CSS, Bootstrap*   https://marlon-03.github.io/Pizza/
Simple static website built with HTML, CSS and Javascript. It is fully responsive and mobile friendly. I got idea of the site from a food website and decided to build it.
